

Product group: Patient Monitoring

BUSINESS LINE: MEDICAL

The solution that meets all your needs:

Medical Thermometers

We offer a range of Medical Thermometers for precise temperature monitoring :

- Digital Thermometers
- Infrared Thermometers
- Ear Thermometers with cover probes

Medical Dynamometers

Primarily used to evaluate muscle strength through effort tests.

All components needed for proper use:

- Wood Calibration Blocks

SpO2 Monitoring

Used to measure the amount of oxygen-carrying hemoglobin in the blood compared to the amount of hemoglobin that is not carrying oxygen

Multi-parameters Monitoring

From the most common monitor, displaying ECG and SpO2 to the most advanced version able to monitor and record other vitals, Qipment can help you find the most suitable device which fulfills your needs.

Product group: Patient Monitoring

BUSINESS LINE: MEDICAL

The solution that meets all your needs:

Glucometers

Used to quickly measure glucose levels in blood.

Two types of glucometer:

- Blood Glucose Monitoring (BGM), with all accessories needed (strips, lancets, control solution)
- Continuous Glucose Monitoring (CGM)

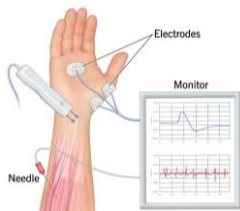

Electroencephalographs and Polysomnographs

Measuring of the electrical activity of the brain.

All components needed for proper use:

- EEG Caps
- EEG Electrodes

Electromyographs (EMG)

Allows to study nerve and muscle function.

We include all components needed for proper use (electrodes).
