

Product group: Respiratory

BUSINESS LINE: MEDICAL

The solution that meets all your needs:

Spirometers

Designed to measure both air volume and speed, this device is essential for accurate diagnostics. Pair it with **turbine mouthpiece** for optimal results. For added convenience, consider using a **nose clip** during testing. And don't forget to stock up on **thermal paper** – a must-have for recording readings. Plus, enhance hygiene and accuracy with our **Bacterial Filters** or **Spirometer Calibration Syringes**.

Nebulizers

This innovative machine suspends fine particles, delivering effective results for patient's respiratory health.

All components needed for proper use:

- Mouthpieces
- Tubing
- Filters
- Masks
- Nebulization Chambers

Portable Ventilators

A portable ventilator is a compact device designed to provide mechanical ventilation.

All components needed for proper use:

- Tubing
- Masks
- Balloons
