

Product group: Storage

BUSINESS LINE: LABORATORY

The solution that meets all your needs:

Freezers

We offer freezer systems along with associated items such as racks, trays, and ice buckets.

Some devices can act as freezers as well as refrigerators.

For more accurate temperature reading we offer data loggers and/or thermometers.

Refrigerators

We offer refrigerator systems to store medicine, vaccine as well as other products.

Some devices can act as freezers as well as refrigerators.

For more accurate temperature reading we offer data loggers and/or thermometers.

Incubators

From the standard incubator for simple temperature regulation to advanced Peltier incubators able to maintain humidity and CO2/O2 levels, Quipment can offer you the right equipment for conducting cell and tissue culture work.

Containers

We have a range of associated items:

- Cool Bags
- Cryoboxes
- Sharp Containers
- Urine Containers.
